This, addressed to the "embassadors of the Prince of Peace," who, as is well-known, have seen engrand in teaching the doctrines of peace, in urging their hearers to imitate Him who "when reviled reviled not sgula," is cool. Have not their voices been heard above the roar of battle, speaking of love and charity, and imploring brethren to cease from cutting each others' throate? When the people have been excited during the week by news of bloodshed, burning and desolation, have they not on the Sabbath heard from the ministers of Him whose kiegdom is not of this world, the gentle words of peace, the call of God to attend to interests in comparison with which the highest concerns of this world shrink into ineignificance? Have not those holy men, the Becchers, the Tyngs and the Cheevers, spent the week in preparing to raise the minds of their hearers to higher and holler things on the Sabbath? Have they not "allured to brighter worlds and ied the way"? What, then, does Mayor Gunther mear?

Operations of the Plorida-Burning of . Two More Vessels at Sea.

A Peterson, G, 64th Ills. L Ancher, I, 64th Ills.

The British steamer Governor Bayley, from Nassau, has arrived at New York, bringing Captains Winslow, of the bark Gelconds, and Wee', of the schooner Margaret Y. Davis, both of which vessels were burned by the Florida.

Capt. W. T. West, of the schooner Mirraret Y. Davis, burned by the privateer Florids, makes the following statement-

Salled from Port Royal, South Carolina, July 3d, bound for New York in ballant; 7th inst., spoke United States gunboat Santingo de Cuba, and was scale in company with her on Saturday, July 9, lat. 37 29, lon. 74 40. At daylight, saw a bark-rigged steamer steering for me who accome on with new and helated for we, who soon came up with us, and helsted the American fig, which we did also. He ordered me to heave to, and he would board me. When his boat came alongside, he hauled down the American colors, and informed me that we were a prize to the Contederate gua-boat Fiorida, and gave us ten minutes to peck up sed leave. They first took my nautical in-straments and other valuables, and then set the vessel on fire.

The crew of the F.'s boat seted in a very dis-

orderly manner. On the same day we were transferred to the schooper Wm. H. Cleare, of Nassan, Capt. Man, from whom the Captale of the F. also got a New Tork Herald, containing the sinking of the Alabams, which confused them much. Besides myself and crew, there was on board Capt. Winslow and crew, of the bark Golconda, of New Bedford, barned predously, who were with ns put on board the Beare and taken to Harbor Island.

Cleare and taken to Harbor Island.

To the distant apectater they were not few. Providence seems to have given us, of a endden, a whole handful of these spiendid opportunities which were showered on the Confederate Generals in the first year of the war, and they fail, as then, noimproved to the groned. Although no great lose of men was sustained, it was a disaster such as never before sell on any portion of the Army of Northfore fell on any portion of the Army of Northern Virginia, and such, we trust, as will never again be known on the soil of the State. But sil regrets and surrows disappear before the glorious tidings from Kernstowe. Perhaps the mortification of the preceding days nerved

the mortification of the preceding days nerved the vesgeful blow.

This battle may be simply glorious, but it may also be a most important event. It is believed that the forces sent by Grant to the relief of Washington returned to him as soon as our army had passed Wischester. The treops defeated by Early must them have been the thrice-whipped host of Hunter, now transferred to Crook, and the scrapings of the garrison at Washington. They are in no condition now to renew any condict, and the door of the enemy's stronghold is again, porhaps, wide open. It is at least probable that the States of Maryland and Pennsylvania are now at Early's mercy. We have no reason to doubt that he will be swift to use the immense advantages he has guised, though we have to-day up news of his march toward the Potomac. The next of his march toward the Potomac. The next news of Early will probably come to us through the Northern papers—and lively news It is likely to be.

HEADQUARTERS A. N. Va., July 26, 1864.

Hon, James Seddon: General Early states that he attacked Major General Crook on the 13th last, on the old battle field of Kersetown, completely reeting him, and pursuad him flvs miles beyond Wis-chester, when he was compelled to halt from the exhaustion of his men, they having marched twenty five miles that day.

The pursuit was continued by the cavalry. From the Richmond Examiner, July 27.1 Gen. Evrly's victory in the vailey has had the desired effect upon Grant. It has convinced him of the importance of doing something "on this line" at once, lested of idling away the summer, now more than half gone, shelling than little town of Petersburg. His first atte has been to increase his force, alfirst step has been to locresse his force, al-teady strong on the north back of the James, at Deep Bottom. He sent over some-troops on Saturday, and on Tuesday night threw over Hancock's corps, thereby increasing his force on this side of the river to twenty thousand mee. He also sent over on Tuesday night twenty-two pieces of cannon. His force at Deep Bettom is accertained to consist of the Tenth, the Ninetsenth and Han-cock's corps. Hancock is probably in com-

front reports the following result of Stoneman's raid on the Macon railroad:

Stoneman's force consisted of Gen. Edward
McCook's division of cavairy, composed of
Long's and one other brigade. The Macon
road was torn up for eighteen miles. The rails
and ties were burned and the road made a
complete wreck. On the return march McCook
fell in with a large wagon train, on which was
much perivate property and all of licod's papers. Near Newman a quaetity of whicky
was captured, and here tromble began. The
robel deneral Raica, who was in persuit, came
up with McCook, when a fight ensued, and up with McCook, when a fight ensued, and McCook was roused. About 500 of his mee reached Marietts, who report the surrender of the main body, 3,300 strong, and that McCook was killed. Among the troops in McCook's division were three or four Olio regiments, the Second Indiana and Fourth regular cavalry. By actual count, 3,910 rebels were killed in the battles on the 20th, 22d and 28th. WASHINGTON, Aug 3.

CHAMBERSBURG, Sunday, July 31. Oa the morning of the 30th of Jely, 1864, the rebels, ueder the command of McCans-land, with a force of about 500 men, entered Chambersburg, Penu., and demanded five hundred thousand dollars from the citizens under a threat of burning the town. This requisition was in writing, and was signed by General Jubal Early. It is now established by indisputable proof that this demand was a mere pretext on the part of the maranders to cover up a purpose, formed before they reach-ed the town, to burn it to the ground. Withed the town, to burn it to the ground. Without giving any time to remove private
property, and scarcely time enough for the
citizins to remove their families, they fired
the houses of our citizens in perhaps tity
places. Over two-handred and fifty houses in
the heart of the town were consented, includleg all the public buildings, stores and hotels,
comprising about two-thirds of a town coutaleing six thousand inhabitants. Thus a large
body of citizes are reduced from comparative wealth to absolute poverity. Many families have lost all their bedding and all their
clothing, except such as they had on their per-

clothing, except such as they had on their per-nose. The loss will be largely over one mil-lion of dollars. Without aid from abroad there will be great suffering in our communi-ty. Rev. John N. ALBANY, August 5. The following is Gov. Seymonr's letter to eccretary Stanton in relation to quotas in the irst ten d'stricts :

EXECUTIVE DEPARTMENT, )

excessive and lejurious. The every agreement of the every congrusal properties of New York are 2.851, in Massachusetts of New Hampshire they are 2.167; in Pennsylvania 2.471. It will be seen that the every Congressional district in this state is for 310 men per district more than required in Pennsylvania, and for 714 men per lurred in Pennsylvania, and for 714 men pen lurred in Pennsylvania, and for 714 men pennsylvania, and for 714 mennsylvania, a qu'red in Pennasivania, and for 714 men per district in Manaschusetta. I menior these States, as I have not been so'e to procure motae accigned elsewhere. There are no differences in the character of the ifferences in the character of the opposition of these States to act for these disrepancies. The most enrollmests appear in a Congressional districts in the cities of New Tork and Brooklyn. The average demand mode upon these is for 3,867 men cach, while in Massachusetts the average demand made upon each district is for 2,167 men. The census current show that the proportion of alleus and fewards is the large towns about make these quoing least not greater than in other bree quotas less, not greater than in othe ections. These returns are confirmed by the character of their respective population. Not only are aliens numerous in New York and Brooklyn, but females make a larger pro troops, cordinal number than elsewhere, as carried of they find more employment in workshops or tember. as dom-stics, and it a comparison is made by tween the citities of the different 8-ates, the db-proportion of men demanded from New York and Brooklyn is still more startling while in these cities twenty-six per cent of the population is earolied. In B meon twelve the population is earolled. In Bason sweeters and a half per cent, or less than one half that ratio, are made liable to be drafted. The ten nruleb, noder the last call, only 1,870 mcm. The first ien Congressional dis-rects in this State are called on for 35,954, ma-tog an excess of 14,284. It is clear that

reat lejustice is done nader these enrolments I doc's mean to find fault with those who made them in New York. I know that what they state is true, that it is impossible to avoid taking the names of those not liable to draft, because they are alless or son-residents. These whose rames are thus erroneously put down have no interest in corrections to line. dows have no laterest in correcting the lists, while the fact that they swell the corrolments bring grievous burthers upon the districts to which they are charged, the draft makes a heavy drain upon all parts of our cenutry. In our cities it is serribused other, A reat proportion of their inhabitants. itants live upon their daily wages, which they must receive with regularity to enable them to give food, fuel and shelter to their families. These can only be obtained by cash payments. The pay of acidices, which is made at irregular times, and perhaps at comparatively long periods, will not provide the necessary anpoort for their families in cities like Naw York

and Biooklyn, and they are frequently broken up and ruined. Every consideration of justice and humanity demands that anequal burders should not be thrown upon them.

It is proper I abould say that sluce rube beginning of this civil war these cities furnished their full contex. heir full que tos, but are to-day entitled to their rull quotes, out are to-day chilled to a credit of about 3 000 one year's men. It would be an act of justice to count of these men against 3,000 men under the present call for serving for one year, but these cities have done more than they have on repeated oc-

New Yorkers have strong cluims not only upon the equity, but upon the gratitude of those who are anninistering the astional affairs. In answer to an appeal which I made to you last year to correct similar wrongs, you then appointed W. A. Alien, of this State, Chumber's Similar of Messachusetts, and J Love, of Indians, a committee to extended into the enrolment of 1862. They submitted an abte report the wing its great injustice, and you relieved these crites from a great wrong. I make that some almilar plan be adopted now, whereby the quotas of this State, which, especially in the aterricts I have named, New York city, and Brooklyn, appear to be unequal and oppressive, may be adjusted equitably, in propor-

and Brooklyn, appear to be needed and op-pressive, may be adjusted equilably, in propor-tion to the demands made on other parts of the country. Since the enrolments were made there has been no opportunity to correct them. Neither can this be done in time while names may be added to the lists, those which were improperly pisced there cannot be taken off. In large cities excess of names can't be

d by official disputcher. Three regiments of carelry and two of infactry are strongly posted in and around the town. The fact that a rebel expedition is accom-

papied by lafautry is a strong indication that this force is the advance of a large body, as such troops are not used for meranding pur-After erresing at Shepardstown It appears he enemy passed through Sharpsburg and So sudden was their descent upon Harerstown that the telegraph operator was com-pelled to leave on a hand ear, closely pursued ce is indispensably necessary, by 15 diff.
